

EURO-MATIC

DIVE INTO PREMIUM QUALITY

with EURO-MATIC
playpen balls.

DISCOVER THE HIGHEST STANDARD IN PLAYPEN BALLS!

Euro-Matic has been setting the global standard for playpen balls for decades. Our commitment to quality, safety, and fun makes us the top choice for indoor play areas, playhouse builders, and event organizers worldwide.

MANUFACTURED SINCE 1965 | MADE IN EU

UNMATCHED QUALITY AND DURABILITY

Rigorous Quality Testing: We compress our balls to half size 20,000 times making sure they are also suitable for adults. Only balls that survive this extensive stress testing are approved, ensuring their unmatched durability.

Euro-Plus™ technology is Euro-Matic's proprietary manufacturing process that ensures the unparalleled quality of the playpen ball production.

2-YEAR GUARANTEE

SAFE FOR ALL AGES

Carefully chosen raw materials (BIO Plastic & LDPE), for the highest health and safety standards! FDA & EMA-approved materials safe enough to eat from.

PVC FREE

BPA FREE

PHTHALATE FREE

VARIETY TO SUIT EVERY NEED

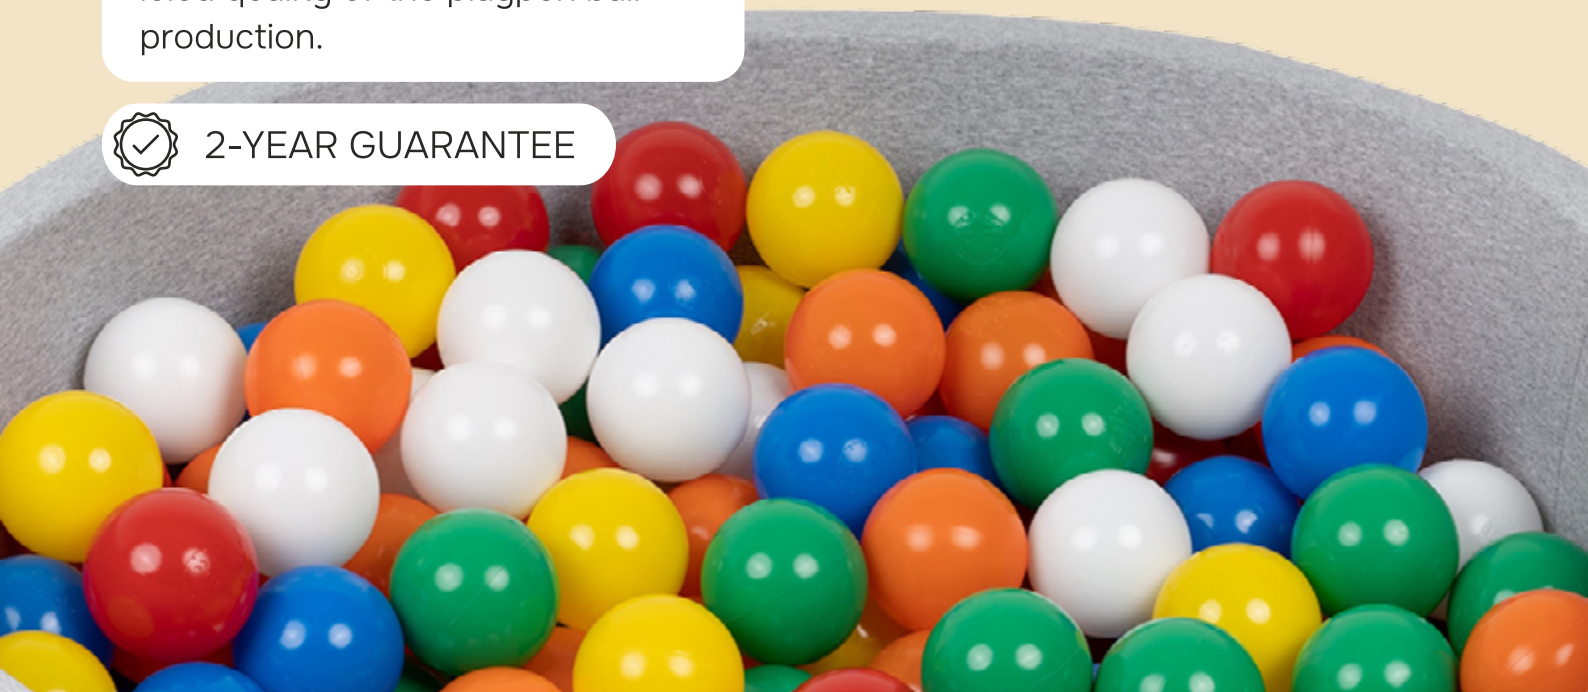

The widest range of colors and sizes to cater to all your needs:

50 mm | 60 mm | 75 mm | 80 mm

- 35+ standard colours
- Custom colour mixes
- Personalization options: printed or embossed logos and text

CE certified: Meets all European Union safety standards for children's toys.

WHY CHOOSE BIO-BASED PLASTIC BALLS?

Plant based material: Made from 100% renewable sugar cane.

Reduced Carbon Footprint: For a healthier planet, where the production process of bio-based materials captures CO₂, making them carbon negative.

Sustainable planet: 100% Recyclable, minimizing environmental impact.

High Durability: Like our classic balls, new Bioballs are also rigorously stress-tested with 20,000 compressions to half size.

Safe and Non-Toxic: Bioballs never contain any harmful chemicals often found in conventional plastics made from fossil fuels. This ensures the highest safety standards for the playing children (or adults).

DISCOVER THE FUTURE OF PLAY WITH EURO-MATIC'S BIO-BASED PLASTIC BALLS

At Euro-Matic, we believe in creating products that are not only great fun but also kind to our planet. Our bio-based plastic balls offer an eco-friendly, sustainable alternative to traditional plastic balls without compromising quality, durability, or safety.

*eco-friendly
fun*

Join Euro-Matic in making a positive impact on the environment by choosing Bio-based playpen balls for your play areas!

CLEANER AND SAFER PLAYTIME WITH ANTIMICROBIAL BALLS

At Euro-Matic, we prioritize the health and safety of children. Our antimicrobial playpen balls are designed to provide a cleaner, safer play experience, incorporating advanced antimicrobial technology to ensure a hygienic environment.

FAST ACTION PROTECTION

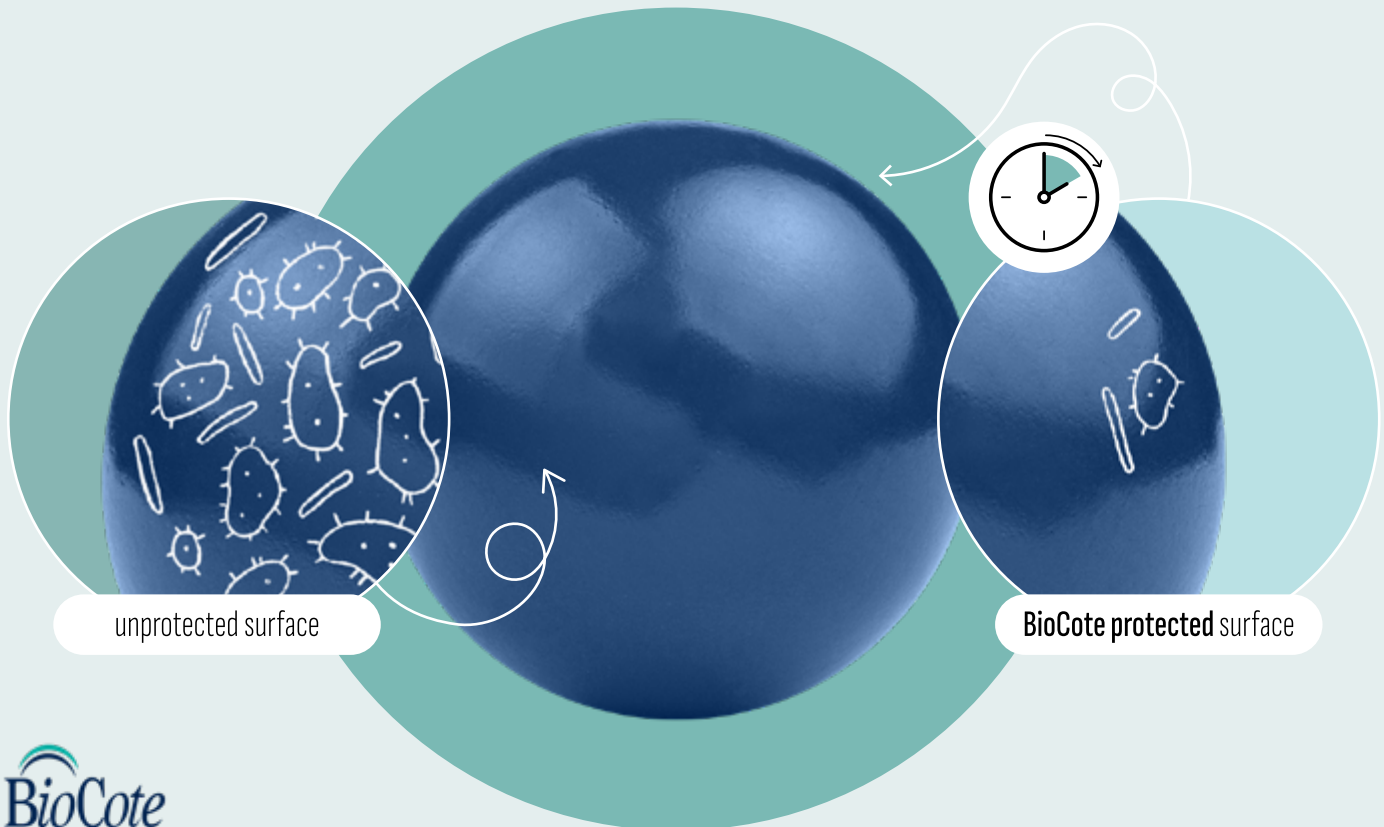

Within 2 hours, our antimicrobial balls eliminate 99,5% of microbes, ensuring that your playgrounds are germ-free by morning. Ready for a new day of a clean and safe environment filled with satisfied, happy, and healthy clients.

WHY CHOOSE ANTIMICROBIAL PLAYPEN BALLS?

Antimicrobial protection: Infused with BioCote® antimicrobial technology, actively reduce 99,99% of bacteria on the surface.

Long-Lasting Protection: The antimicrobial properties are integrated during the manufacturing process, ensuring continuous protection throughout the product's lifespan.

Durability: Like our classic balls, new Bioballs are also rigorously stress-tested with 20,000 compressions to half size.

Join Euro-Matic in creating safer play areas by choosing our antimicrobial playpen balls!

Why choose between eco-friendly and antimicrobial when **you can have both?**
